<https://github.com/pythonincontainers/django-polls>

Commands:

```
$ git clone https://github.com/pythonincontainers/django-polls
```

```
$ cd django-polls
```

```
$ docker run -d --name polls-demo -p 8000:8000 django-  
polls:demo1
```

```
$ docker exec -it polls-demo python manage.py createsuperuser
```

```
$ docker exec -it polls-demo python manage.py dumpdata auth.user  
--indent 4
```

```
$ docker rm -f polls-demo
```

```
$ docker build -t django-polls:demo2 -f Dockerfile.demo2 --  
build-arg BaseImage=django .
```

```
$ docker run -it --rm -p 8000:8000 django-polls:demo2
```

```
$ docker run -it --rm django-polls:demo2 test
```
