Commands:

```
$ git clone http://github.com/pythonincontainers/swarm-stack

$ cd swarm-stack

$ atom .

$ docker stack deploy -c flask_hostname.yml hello

$ docker stack ls

$ docker stack services hello

$ docker stack ps hello

$ docker-machine ip swarm-wrk2

$ docker service update --replicas 6 hello_hello

$ docker stack deploy -c flask_hostname.yml hello

$ docker stack deploy -c flask_hostname.v2.yml hello

$ docker stack rm hello
```
